

The cost-effective Adaico Ada-Slider is now available from Structure-flex, the UK's largest supplier of lorry tension curtains

The Ada-Slider features a reinforced sliding curtain secured with a single tensioning lock to provide easy access and a smooth surface for branding.

FEATURES

- Pocket and fixed strap style
- Extensive choice of fabric colour
- Full EN-XL load bearing options
- Security and insulated options
- Livery options for rear door, cab decals and wraps
- Curtain measuring service
- Signwriting and full digital print

Patented horizontal aluminium profiles enable the rollers to move easily whatever weight they support

Available up to 2.4m high and 3.5m to 7m long

PVC protectors cover the lower profiles to avoid damage from forklifts

Installed in under 2 hours with all parts easy to replace

Patented 'out folding' design ensure curtain concertinas outwards to prolong its life

Door locks act as powerful horizontal tensioners, providing a smooth curtain for graphics

Telescopic door makes opening and locking easy even when the trailer is twisted

Tension lock features bayonet coupling which can be set at any convenient height
